2. Report of Messrs. Little, Inc., on MDC property located in the City of Cambridge and the Town of Arlington and within the MDC Alewife Brook Reservation by AP Cambridge Limited Partners LLC, as purchaser of the adjacent privately-held property, by means of an annual MDC permit, which permit shall allow the use of this parking lot solely for parking purposes, for a term not to exceed five (5) years from the effective date of July 24, 1999, and to authorize the Commissioner to sign said permit on its behalf.

Messrs. French and Gray further recommend that this MDC permit shall not incorporate the conditions set forth in the earlier vote of June 24, 1999, but rather shall expressly include and incorporate the following conditions:

- i. The permittee shall assume the full and sole costs of maintaining the existing parking lot in its current operational condition.
- ii. The permittee shall assume the full and sole cost of funding a phased Master Plan and design, and an initial phase of construction, encompassing the entire Alewife Brook Reservation, in an amount not to exceed \$50,000.00 per installment during the first three years of this permit, payable in three (3) separate installments at twelve-month intervals beginning six (6) months from the effective date of this permit. The total amount to be paid by said permittee shall not exceed the total amount of \$150,000.00 for the phased Master Plan and design, and an initial phase of construction, as contemplated by the Commission, and shall be paid either directly to the consultant or consultants selected by the Commission, or as otherwise directed by said Commission.

- iii. The phased Master Plan shall be conducted by the MDC Planning Office, in consultation with all interested community groups.
- iv. If this permit continues in force and effect, the permittee shall pay the Commission the amount of \$5,000.00 per month during the fourth through the fifth successive year of this permit.
- v. The permittee acknowledges that the public shall be allowed to access the premises for park use and enjoyment, subject to the rules and regulations of the Commission.

Following several minutes of general discussion, Commissioner Balfour noted that the matter of the parking permit was discussed at length with interested parties at the Commission Meeting of June 24, 1999 and also at a special meeting at Commission headquarters on September 14, 1999.

However, he stated, due to the interest shown at today's meeting, he would allow a period of further discussion by those in attendance. In addition, he stated, Mr. Gray would be available in the Commission's ninth floor conference room, following the Commission meeting, to answer any additional questions.

In response to Richard Cleary of North Cambridge, Mr. Gray stated that the spaces in the parking lot will be available to the public and will not be for the exclusive use of AP Cambridge Partners LLC. In addition, Mr. Gray explained title of the parking lot will not be transferred to AP Cambridge Partners LLC. Julia Bowdoin, Conservation Commission Director for the City of Cambridge, addressed the Commission and stated that the Conservation Commission is opposed to the issuance of the parking permit. She then read a memo from Susanne Rasmussen, Director of Environmental and Transportation Planning, for the City of Cambridge, which was presented to the Secretary, for the record, and stated in part, "I would encourage that the demand calculation be made a factor in MDC's decision whether to continue to make the parking in the Reservation available to Acorn Park, as it may determine that this parking is not needed to meet project demand."

Stash Horowitz, President of the Cambridge Neighborhood Association, spoke of his opposition to the issuance of a parking permit as written and spoke of his other concerns regarding the permit.

He encouraged the Commission to increase the permit fees as outlined section ii and iii of the conditions with the collected funds going to the consultant study and traffic mitigation measures.

Representative Alice Wolf of Cambridge, addressed the Commission and expressed her opposition to the permit. She presented the Secretary with a letter, for the record, expressing her concerns. Representative Anne M. Paulsen of Belmont, spoke of the adverse impact the parking lot has on the Alewife Reservation and stated that it is time to return the parking lot land to the Alewife

Reservation. Representative Paulsen presented the Secretary with a letter, for the record, outlining her concerns.

Michael Brandon of North Cambridge questioned if a real estate appraisal of the property had been performed.

Mr. Gray responded in the affirmative.

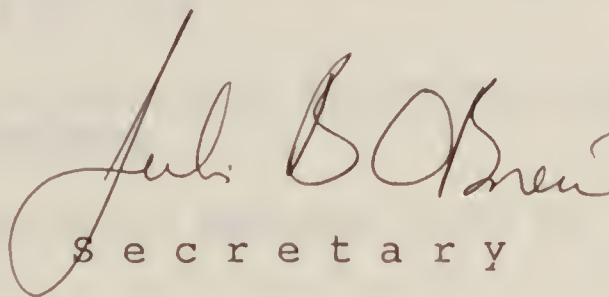

The Commission V O T E D: Consistent with the vote of the Commission on June 24, 1999, to authorize the use of the existing parking lot currently being utilized by Arthur D. Little, Inc., on MDC property located in the City of Cambridge and the Town of Arlington and within the MDC Alewife Brook Reservation by AP Cambridge Limited Partners LLC, as purchaser of the adjacent privately-held property, by means of an annual MDC permit, which permit shall allow the use of this parking lot solely for parking purposes, for a term not to exceed five (5) years from the effective date of July 24, 1999.

The Commission further V O T E D: to authorize Commissioner Balfour to sign said permit on its behalf.

The Commission further V O T E D: that this MDC permit shall not incorporate the conditions set forth in the earlier vote of June 24, 1999, but rather shall expressly include and incorporate the following conditions:

- i. The permittee shall assume the full and sole costs of maintaining the existing parking lot in its current operational condition.
- ii. The permittee shall assume the full and sole cost of funding a phased Master Plan and design, and an initial phase of construction, encompassing the entire Alewife Brook Reservation, in an amount not to exceed \$50,000.00 per installment during the first three years of this permit, payable in three (3) separate installments at twelve-month intervals beginning six (6) months from the effective date of this permit. The total amount to be paid by said permittee shall not exceed the total amount of \$150,000.00 for the phased Master Plan and design, and an initial phase of construction, as contemplated by the Commission, and shall be paid either directly to the consultant or consultants selected by the Commission, or as otherwise directed by said Commission.
- iii. The phased Master Plan shall be conducted by the MDC Planning Office, in consultation with all interested community groups.
- iv. If this permit continues in force and effect, the permittee shall pay the Commission the amount of \$5,000.00 per month during the fourth through the fifth successive year of this permit.
- v. The permittee acknowledges that the public shall be allowed to access the premises for park use and enjoyment, subject to the rules and regulations of the Commission.

The first part of the paper discusses the importance of the study and the objectives of the research. It then proceeds to a literature review, followed by a description of the methodology used in the study. The results of the study are presented in the next section, followed by a discussion of the findings and their implications. The paper concludes with a summary of the main points and a list of references.

The study was conducted in a laboratory setting, using a series of experiments to measure the effect of different factors on the rate of reaction. The results show that the rate of reaction increases with increasing temperature and concentration, and decreases with increasing volume. The findings are consistent with the theoretical predictions and have important implications for the design of industrial processes.

The study was limited by the availability of equipment and the time available for the experiments. Further research is needed to investigate the effect of other factors on the rate of reaction, and to develop more accurate models for the reaction process.

**ORDER OF TAKING
COMMONWEALTH OF MASSACHUSETTS
METROPOLITAN DISTRICT COMMISSION**

Boston, December 1, 1999.

ORDERED: That the Metropolitan District Commission by virtue of the power and authority conferred upon it by Chapter 564 of the Acts of 1987, Chapter 36 of the Acts of 1992, Chapter 88 of the Acts of 1997 and Section 117 of Chapter 92 of the General Laws, and acts in amendment thereof or in addition thereto and every other power and authority hereto enabling, for the purposes of said acts and provisions, does hereby order the taking of and does hereby take in fee for watershed preservation, protection and operation purposes, under the provisions of Chapter 79 of the General Laws, in the name and behalf of the Commonwealth of Massachusetts, the following described land situated in the Town of Sterling in the County of Worcester and Commonwealth of Massachusetts, namely:

A certain parcel of land lying on the easterly or southeasterly side of Lower Nelson Road or South Nelson Road, more particularly bounded and described as follows:

Beginning at a stone wall in the easterly side of said road, at the southwesterly corner of the parcel herein being described, said corner being also the northwesterly corner of land, formerly of Edwin Wilder, now or formerly, of Robert A. & Sharon Ann Bloom (see deed dated 11/03/76 recorded with Worcester District Registry of Deeds at Book 6061, Page 49);

Thence Northeasterly, 510 feet, more or less, by the easterly side of the said road, to a point in the remains of a wall, said point being 71.5 feet southwesterly of a Worcester County Highway bound in the easterly side of said road, and at land, formerly of Alden & Alice T. Rose, now or formerly, of Walter A. Janowicz and the late Emily E. Janowicz (see deed dated 12/09/55 recorded with said Deeds at Book 3738, Page 4);

Thence S. 56° E., 100 feet, more or less, by land, now or formerly, of W. Janowicz et als, to a point at the northeasterly corner of the parcel herein being described;

Thence Southwesterly, 510 feet, more or less, on a line parallel to the easterly side of said road, to a point in the stone wall marking the northerly line of land, formerly of E. Wilder, now or formerly, of the aforesaid R.A. & S.A. Bloom;

Thence N. 56° W., 100 feet, more or less, by the stone wall and land, now or formerly, of R.A. & S.A. Bloom, to the point and place of beginning in the easterly line of South Nelson Road.

Containing 1.1 acres, more or less, by prior deed description.

It is noted that the above recited description, based upon the prior deed description, is not entirely consistent with the record descriptions of the abutting lands, now or formerly, of said Janowicz.

The current deed description of the property of Walter Janowicz et als, is supposed to be based upon a plan entitled "Plan of Land in Sterling, Mass. drawn by John F. Fuller for Alden Rose", dated April 1955, which plan was to be recorded with the deed from Alden & Alice T. Rose to Walter A. & Emily E. Janowicz, dated 12/09/55, and recorded with said Deeds at Book 3738, Page 4. This plan is, however, not of record with Worcester District Registry of Deeds.

The 4th, 5th and 6th courses recited in the above cited deed should conform to the 2nd and 3rd courses in the earlier conveyance from Alden & Alice T. Rose to Robert H. & Olive W. Winter dated 11/16/54 and recorded with said Deeds at Book 3637, Page 188.

The 4th, 5th and 6th courses are as follows:

Thence S. 56° 25' E., 100 feet, by Winters land, to a point;

Thence S. 09° 50' W., 68 feet, by Winters land, to a point;

Thence S. 23° 40' W., 443 feet, more or less, along Winters land, to a stone wall at land, now or formerly, of Edwin Wilder;

See also a plan of the land, formerly of Edwin Wilder, entitled "Plan of Land in Sterling to be conveyed to James E. Simpson," dated 25 June 1976, prepared by William L. Berry, P.L.S., Berry Engineering, Inc., which plan is recorded with said Deeds as Plan 62 in Plan Book 426.

The 1934 Worcester County Record Layout of South Nelson Road shows that the northwesterly line of the premises described and taken herein consists partially of a straight line and partially of the arc of a curve. See the County Commissioners taking recorded with said Deeds on November 6, 1934 at Book 2626, Page 49, and the accompanying plan labeled Decree 1060 Plan H-2392 R, 11 Sheets, recorded as Plan 8 in Plan Book 83.

Meaning and intending to take hereby the above premises, howsoever the same may be bounded and described, and including any and all fee interest in South Nelson Road, which may be held by the supposed owner as a result of her ownership of the above described premises, and being the same premises described as Parcel 2 in a deed from Mary Ann Waddell and Martha B. Smith to Mary Ann Waddell, dated 9th July 1985 and recorded with Worcester District Registry of Deeds at Book 8848, Page 92.

The above described property is represented upon Sterling Assessors Tax Map 45 as Parcel 12.

AND IN LIKE MANNER, for the same purposes and by virtue of the same powers, the said Metropolitan District Commission does hereby order the taking of and does hereby take in the name and for the benefit of the Commonwealth of Massachusetts, for the purposes of said acts and provisions, all trees on said land and structures affixed to said land, with the exception of the poles, wires, cables, conduits, pipes and their appurtenances, for the conveyance of water, sewage, steam, gas and electricity, and for the transmission of telephone and telegraph communications and data or signals by electrical or electronic or electromagnetic means of any kind, now lawfully in or upon said land, and excluding all easements of record on, over, under, across and through said land.

The Commission awards damages sustained by the supposed owner of the land hereinabove mentioned by reason of said taking, in the following sum:

OWNER

AWARD

Mary Ann Winters a.k.a. Mary Ann
Waddell Winters

\$ 60,000.00

The Commission further V O T E D: to approve an award of damages in the amount of \$60,000.00, together with such damages and costs as required under General Laws, Chapter 79, Sections 6, 12, 39 and 44A.

The first part of the paper discusses the importance of the study of the history of the United States. It is argued that a knowledge of the past is essential for a full understanding of the present. The author then proceeds to a detailed examination of the early years of the Republic, from the time of the signing of the Declaration of Independence to the end of the War of 1812. This section covers the political, social, and economic developments of the period, and the role of the various states in the formation of the new nation. The author also discusses the influence of foreign powers, particularly Britain and France, on the early development of the United States. The second part of the paper deals with the period from 1812 to 1860, a time of rapid growth and change. It examines the expansion of the territory, the development of the economy, and the rise of the industrial revolution. The author also discusses the growing tensions between the North and the South, which ultimately led to the Civil War. The final part of the paper is a conclusion, in which the author summarizes the main points of the study and offers some thoughts on the future of the United States.

THE HISTORY OF THE UNITED STATES

The history of the United States is a story of growth and change. It begins with the first settlers, who came to the New World in search of a better life. They found a land of opportunity, but also a land of challenge. The early years were marked by conflict and struggle, as the settlers fought to establish their own communities and defend their rights. Over time, the United States grew from a small colony into a powerful nation, with a rich and diverse culture. The story of the United States is a story of the human spirit, of the pursuit of freedom and the dream of a better future.

The United States has a long and proud history, and it is a country that has made many contributions to the world. From the first settlers to the present day, the United States has been a land of opportunity and a land of hope. It is a country that has stood for freedom and justice, and it is a country that has inspired people all over the world.

The history of the United States is a story of the human spirit, of the pursuit of freedom and the dream of a better future. It is a story that is still being written, and it is a story that we all have a part in. The United States is a country that has made many contributions to the world, and it is a country that has inspired people all over the world. It is a country that has stood for freedom and justice, and it is a country that has shown the world that a better future is possible.

THE HISTORY OF THE UNITED STATES

The history of the United States is a story of growth, struggle, and achievement. From the first settlers to the present day, the nation has faced countless challenges and overcome them through the strength of its people and the values of freedom and justice.

In the early years, the colonies fought for independence from British rule. The American Revolution was a turning point in the nation's history, leading to the birth of a new country. The Founding Fathers established a government based on the principles of liberty and equality, which have guided the nation ever since.

As the nation grew, it faced new challenges. The Civil War was a period of great conflict and sacrifice, as the country fought to resolve the issue of slavery. The war ended in 1865, and the nation began to rebuild itself.

In the years following the Civil War, the United States expanded its territory and influence. It became a world power, and its values of freedom and democracy spread across the globe. The nation has continued to grow and evolve, facing new challenges and achieving new successes.

Today, the United States is a country of great diversity and opportunity. It is a land where people from all backgrounds and cultures can live together in peace and harmony. The history of the United States is a testament to the power of the human spirit and the values of freedom and justice.

THE HISTORY OF THE UNITED STATES

The history of the United States is a story of growth and change. It begins with the first settlers who came to the Americas, and continues through the years of exploration, settlement, and the struggle for independence. The story is one of a people who have built a nation of freedom and opportunity.

The early years of the United States were marked by a period of rapid growth. The population increased from a few thousand in 1776 to over 20 million by 1860. The territory of the nation expanded from the Atlantic coast to the Pacific Ocean. The economy grew from a simple agrarian society to a complex industrial one.

The years of the Civil War were a period of great struggle and sacrifice. The nation was divided into two warring factions, the Union and the Confederacy. The war ended in 1865 with the victory of the Union, and the beginning of a new era of reconstruction.

The years following the Civil War were a period of rapid growth and change. The population increased from 30 million in 1860 to over 60 million by 1900.
